TO: Minerals File

FROM: Tom Munson, Senior Reclamation Specialist *TM*

RE: Site Inspection, MCW Enterprises Company, Crescent Creek/May Day Millsite, S/017/043, Garfield County, Utah

Date of Inspection: October 26, 2001

Time of Inspection: 2:20 p.m.

Conditions: Sunny

Participants: Bobby Hogget, MCW Enterprises; Buzz Rakow, BLM; Tom Munson, DOGM

Purpose of Inspection: To inspect site in response to operator wanting to transfer from MCW Enterprises to Kim Wilson (Martinique Mining).

Observations:

I GPS'd the site, file number R10-25-19A. When I took the GPS reading of the disturbed area, there was trouble with the satellite coming and going, so the file may be erroneous or not. When we arrived at the site with Bobby Hogget, there was some equipment missing. He thought that someone had possibly absconded with it. There was a fair amount of loose junk, pipe and equipment lying around that I suggested be consolidated into one pile. There is obviously no activity going on here now. It does not appear that this could be any operation at all in the near future without some major rehab.

Conclusions and Recommendations:

We should keep an eye on this site for the next couple of years of inspections. If no activity has taken place during that time, determine the validity of using this site then write a letter requesting the operator reclaim the site.
